

LIST OF COUNTRIES AFFECTED BY COVID-19 DISEASE (effective from 24 to 30 January)

Country (territory)	Requirements for travellers
Countries whence arrivals fall subject to the enhanced communicable disease control measures	
—	<p>Travellers to Lithuania will be required to complete an online registration form no earlier than 48 hours before the start of the trip and to show the confirmation (QR code) to the carrier when boarding the vehicle, or those travelling by their own transport will have to show it to the NPHC staff or other officers at the border checkpoint or passenger checkpoint.</p> <p>A COVID-19 test (PCR test or antigen test) is mandatory. A serological antibody test result will not be recognised.</p> <p>A PCR test for COVID-19 must have been taken within 72 hours before the entry to Lithuania with a negative result thereof, an antigen test must have been taken within 48 hours before the entry to Lithuania with a negative result thereof. A document evidencing negative testing must be presented to the carrier before the trip. The test for COVID-19 will be mandatory for individuals from 16 years. Foreigners arriving in Lithuania by carrier transport for humanitarian reasons will not be required to present a negative COVID-19 test result, but they will have to book a testing appointment visit within 24 hours of the arrival in Lithuania.</p> <p>Negative testing and self-isolation will also be mandatory in the case of those vaccinated or with past infection. Children will also need to take two tests and to self-isolate regardless of their age or the result of the COVID-19 test.</p> <p>After the arrival in Lithuania, yet another two PCR tests will be required (it will not apply to those recovered, if the COVID-19 disease was confirmed on the basis of a positive PCR test within 90 days before the arrival in Lithuania):</p>

- on the third day of arrival at the latest;
- between the seventh and the tenth day of arrival.

Mandatory 7-day self-isolation. Tighter self-isolation requirements:

- no walks outside;

no self-isolation in the same house or apartment with other family members that are not part of the travelling party. In the case of self-isolation with the family, the family members will be required to stay in self-isolation for the same period of time

- (they will not be issued a sick-leave certificate);

** employees of the listed occupations who live with other persons can self-isolate in one apartment or a house with other persons that have not been a part of the travelling party. Those staying together do not have to self-isolate.*

- it is mandatory to follow other self-isolation requirements.

Those subject to self-isolation exemptions will have to restrict the number of their contacts for 14 days of arrival in Lithuania. It is recommended that working persons commute only between work and home if there is no possibility of working from home. As regards contacts with others, wearing protective equipment covering the nose and mouth: face masks, respirators or other means will remain mandatory, also the observance of other general instructions for the prevention of COVID-19. They are also required to take two PCR tests in Lithuania:

- on the third day of arrival at the latest;
- between the seventh and the tenth day of arrival.

The place of self-isolation can be left at NPHC's permission to go to another place of self-isolation if it has to be changed for justified reasons (up to two times during the self-isolation period).

It will be allowed to leave the place of self-isolation at the notification of the NPHC in the following cases:

	<ul style="list-style-type: none"> foreigners and citizens of the Republic of Lithuania living or working abroad, those who need to leave for health reasons, crew members, who are employed in companies engaged in international commercial transportation, or who carry out international commercial transportation by all types of vehicles, will be allowed to depart from the Republic of Lithuania to the country where they live, work or where health care will be provided before the lapse of the required period of self-isolation. <p>It will be allowed to leave the place of self-isolation without the notification of the NPHC in the following cases:</p> <ul style="list-style-type: none"> to go or take a person who cannot take care of themselves to a personal health care institution (PHCI) for emergency aid: to go to a mobile point or a PHCI to have nasopharyngeal and oropharyngeal swab specimen collected for a COVID-19 test after prior registration with the COVID-19 Hotline at 1808 or with the NPHC, or to transport those unable to take care of themselves for this purpose.
