

EFFICIENCY AND SUSTAINABILITY OF LITHUANIAN HEALTH SYSTEM

Vytenis Andriukaitis
European Commissioner for Health and Food Safety

25 May 2018

Challenges in Lithuania

#1

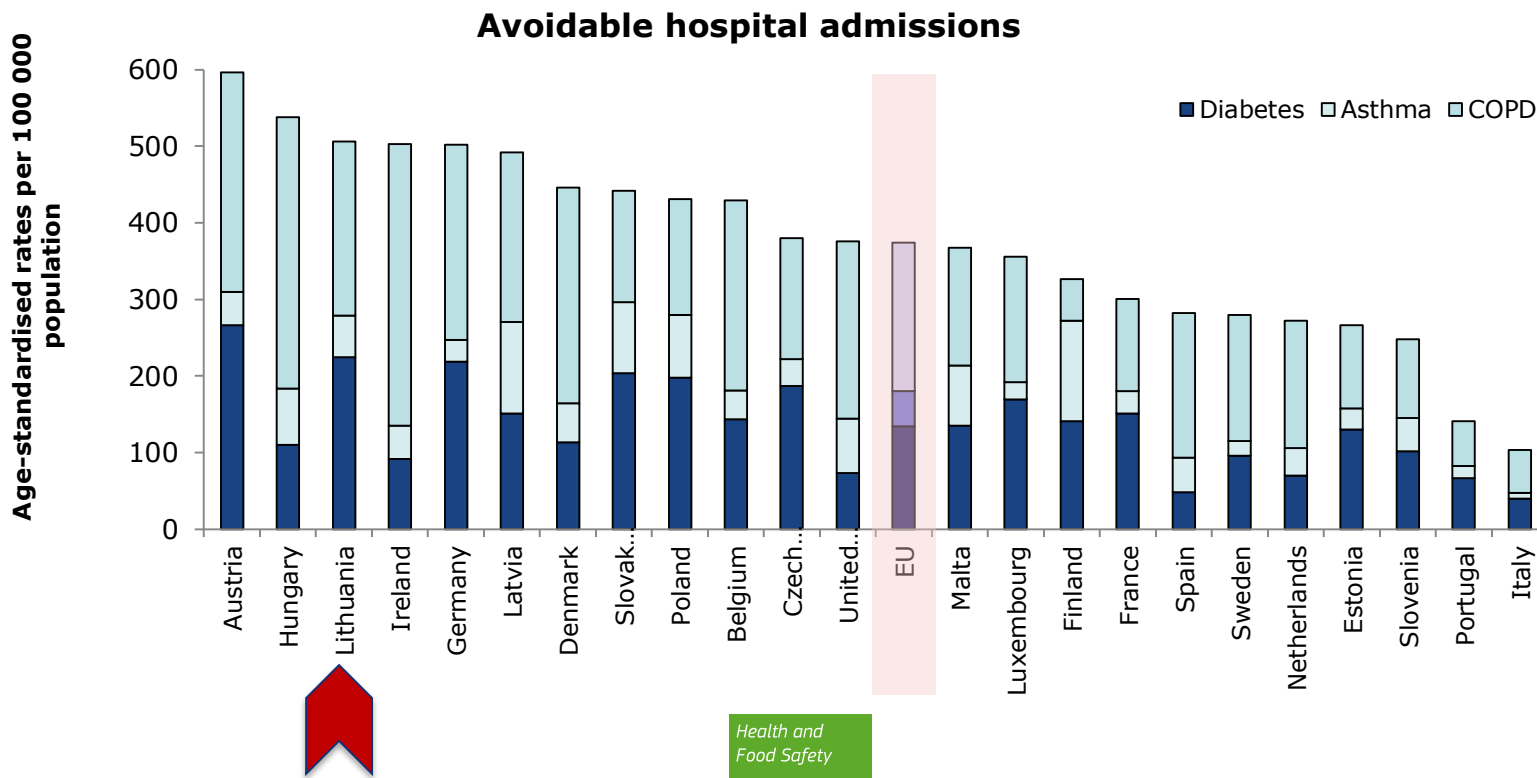

Disease prevention and health promotion measures should be scaled up and embedded in a robust framework ensuring necessary resources and accountability mechanisms at municipality level.

Challenges in Lithuania

#2

A further shift from hospital to primary care with stronger considerations of measures to improve quality of services in both segments and more optimal allocation of resources.

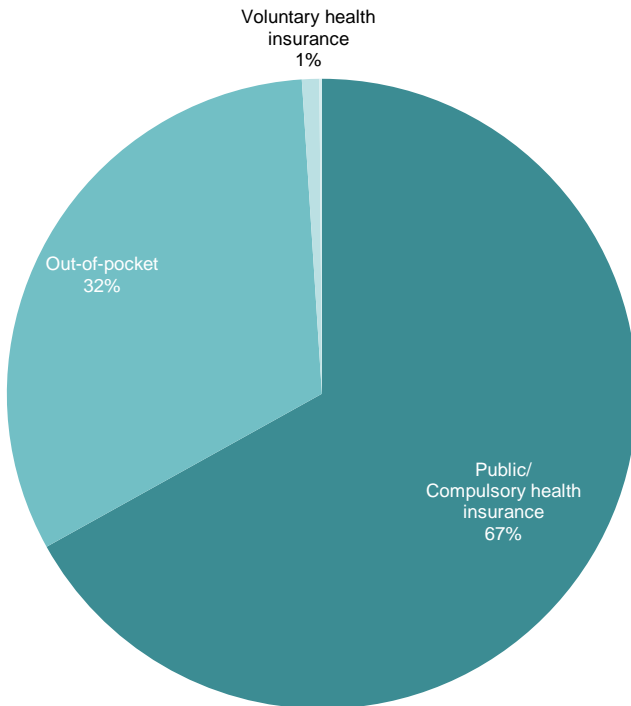

Challenges in Lithuania

#3

Affordability of healthcare, especially for the most vulnerable population.

Principle 16 of the **European Pillar of Social Rights**: Everyone has the right to timely access to **affordable**, preventive and curative health care of good quality

European
Commission

How to address these challenges?

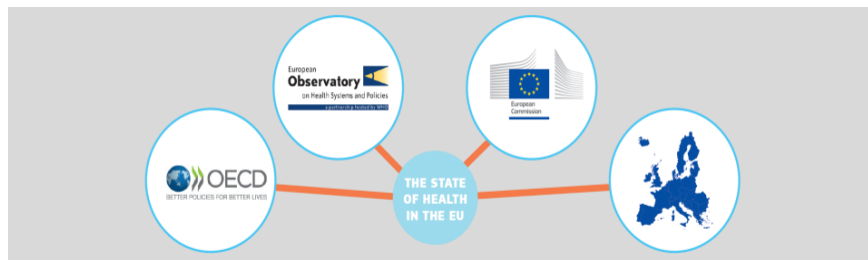

State of Health in the EU
Pooling expertise, strengthening knowledge

WHAT?

Bringing together internationally renowned expertise to strengthen country-specific and EU-wide knowledge on health in a two-year exercise

WHY?

To better support EU Member States in their evidence-based policy making and boost analytical capacity

European Union
European Structural
and Investment Funds

European
Commission
